EDUCATION

B.E. Computer Science and Engineering   **Aug 2019 – Jun 2023**

Jayaraj Annapackiam CSI College of Engineering   Thoothukudi, TN
8.76 CGPA

Relevant Knowledge

- Data Structures
- Algorithm Analysis
- Artifical Intelligence
- Full Stack
- Problem Sloving
- Database Management
- Deep learning , NLP
- Software Testing

Experience

Cerulean Solution   **Oct 2023-Present**
Full Stack Developer   Madurai,TN

- Develop and maintain Front-end applications using HTML5, CSS and React JS
- Design and implement back-end services and APIs using Node JS
- Integrate and manage databases, including MongoDB and MSSQL.
- Skilled data scientist with experience in analyzing large datasets and extracting valuable insights to drive business decisions.
- Proficient in machine learning techniques such as regression, classification, clustering, and natural language processing.

Projects

FOOD ORDERING WEB APP | *REACT JS, NODE JS &MSSQL*   **Mar 2024**

- Developed a food ordering web app featuring a stepper component for streamlined navigation, an email OTP verification system for secure authentication, and CRUD operations for managing Cards.

Chat BOT | *PYTHON, HTML, CSS, JS, JSON*   **Jan 2024**

- Developed an interactive chatbot using NLP & ML techniques to assist users with inquiries efficiently and accurately.

Modern Massive Online Free Learning Platform UI | *HTML, CSS, JS*   **2022-2023**

- The aim of this project is to develop an MMOFLP system. large class learning techniques used in teaching computer science.

College Department Management System | *HTML, CSS, JS, PHP, SQL*   **2021-2022**

- Our project aim is to design a website that provides detail about Computer Science Engineering

Technical Skills

Languages: Java, Python, HTML, CSS, JavaScript, ReactJS and Tailwind CSS, NodeJS, SQL
Developer Tools: VS Code, Eclipse
Technologies: Github, Codepan WordPress, Ticketing tool-JIRA, Slack

Certificates

- React JS
- Node JS
